Product Overview - Wire Rope Cutting Machine

Automatic Hydraulic Stainless Steel Rope Ringing Machine

DQ2-8

Automatic Hydraulic Stainless Steel Rope Ringing Machine

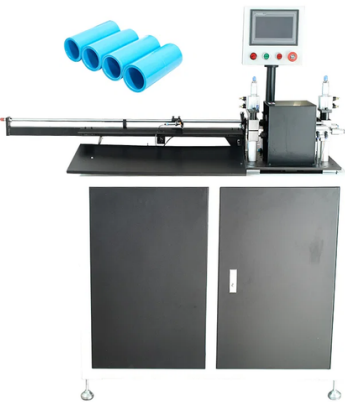

DQ2-10mm

Automatic Stainless Steel Coiling Machine for Cable Harness

Plastic pipe cutting machine

Automatic feeding, flat cut, simple operation

WPM-3100

Ring-Shaped Chipless Pipe Cutting Machine for Metal, Steel, Plastic

Pneumatic Large Cable Cutting Machine

Customized suitable machine for different wire range according customer needs

10-150mm2(BVR Wire)

Sharp knife edge, smooth cut, stable performance

Please inform us of wire size before placing an order

WPM-5-150MM2

Pneumatic Large Cable Cutter for 5-150mm Wires

Wire Rope Cutting Machine

Precise cutting, flat cut

WPM-WR

Wire Rope Metal Cutting Machine with LCD Screen & Straightener

WPM-ZCUT-100S

Automatic Wire Rope & Metal Sheet Cutting Machine

Pure pneumatic thread cutting machine

Can cut 1-50 square soft cord

easy to use high speed efficient Flat cut

WPM-C50

Pneumatic Cable Cutter for 50mm OD Thick Wires

WPM-09A

Automatic Wire & Heat Shrink Tube Cutter with LCD Display

Automatic Hydraulic Stainless Steel Rope Ringing Machine

Automatic Hydraulic Stainless Steel Rope Ringing Machine

The automatic hydraulic stainless steel rope ringing machine is a cutting-edge piece of equipment designed to streamline and enhance the process of attaching rings to stainless steel ropes. With its advanced automation technology, this machine eliminates the need for manual labor, reducing human error and increasing productivity. It features fully automatic operation, a powerful hydraulic system for consistent and precise ring attachment, durable stainless steel construction for longevity and corrosion resistance, and enhanced safety for operators.

Specifications

Model	DQ2-8
Product Type	Ringing Machine
Specifications	8*30
Motor Power	Various KW
Drive System	Hydraulic
Material	Stainless Steel
Application	Metal Processing

Automatic Stainless Steel Coiling Machine for Cable Harness

The fully automatic stainless steel coiling machine is a cutting-edge piece of equipment designed to streamline the process of coiling stainless steel. With its advanced technology and precision engineering, this machine offers unparalleled efficiency and accuracy in coil production. It features fully automated operation, seamless continuous production, high-quality stainless steel construction, and integrated safety features for operator protection.

Specifications

Model	DQ2-10mm
Product Name	10D Circular Machine
Motor Power	4.0KW
Dimensions	1600*800*1540 mm
Weight	1500KG
Application	TV Stop Ring, Flat Steel Coil
Automation	Fully Automatic

Plastic pipe cutting machine

Automatic feeding, flat cut, simple operation

Ring-Shaped Chipless Pipe Cutting Machine for Metal, Steel, Plastic

The WPM-3100 is a revolutionary ring-shaped cutter designed for achieving exceptionally clean and precise cuts across a wide range of materials. This versatile machine handles metal pipe cutting, steel pipe cutting, PE pipe cutting, rotary PVC hose cutting, and plastic pipe cutting. Engineered for chipless operation, it delivers flat, smooth cuts with unparalleled control and accuracy. Features include high-definition LCD screen, infinitely variable speed control, and seamless integration into automated extrusion lines.

Specifications

Model	WPM-3100
Product Name	Ring Cutting Machine
Power Supply	220V/360V 450W
Weight	70KG
Speed	Automatic, Infinitely Variable
Max Cut Pipe	100mm
Cutting Length	3mm - 1000mm
Dimensions	1300*800*1100 mm

Pneumatic Large Cable Cutter for 5-150mm Wires

The WPM-5-150MM2 is a pneumatic large cable cutting machine designed for cutting large cables with simple operation and fast speed. It features minimal gas consumption, low failure rate, and easy maintenance. This non-standard machine is specialized in cutting large cables, adopting power type and pneumatic pedal type to achieve the cutting effect. The tangent line uses a powerful cylinder with bore of 100 and stroke of 50. Suitable for 5-150 square large electronic wires, cables, power cables, USB cables, coaxial cables, and BV wires.

Specifications

Model	WPM-5-150MM2
Air Pressure	0.4-0.7 MPa
Power	220V 50-60Hz
Weight	35kg
Cutting Length	1-99999.99 mm
Wire Range	5-150mm BVR Wire
Cylinder Bore	100
Stroke	50
Dimensions	400*450*200 mm

Pneumatic Large Cable Cutting Machine

Customized suitable machine for different wire range according customer needs

10-150mm2(BVR Wire)

Sharp knife edge, smooth cut, stable performance

Please inform us of wire size before placing an order

Wire Rope Cutting Machine

Precise cutting, flat cut

Wire Rope Metal Cutting Machine with LCD Screen & Straightener

This revolutionary wire rope metal cutting machine is a versatile and powerful solution designed for precision metal processing. It excels as a wire rope cutting machine and metal cutting machine, incorporating integrated wire straightening cutting equipment. Features include an intuitive LCD screen control interface, adjustable guide rod for enhanced accuracy, integrated wire straightening for damage-free processing, durable blades for sharp burr-free cuts, and simple plug-and-play operation.

Specifications

Control Interface	LCD Screen
Functions	Feeding Length, Cutting Speed, Batch Size, Total Quantity
Materials	Wires, Ropes, Tubes, Sheets, Ribbons
Features	Adjustable Guide Rod, Multi-strip Cutting, Burr-free Edges
Operation	Plug-and-Play
Components	High-Quality Sharp Blades, Mechanical Straightener

Automatic Wire Rope & Metal Sheet Cutting Machine

The WPM-ZCUT-100S is a powerhouse wire rope cutting machine designed to tackle a diverse range of metal cutting tasks with exceptional precision and efficiency. This multi-functional machine handles wire steel rope cutting, nickel sheet cutting, steel cable cutting, copper sheet cutting, and stainless steel wire rope cutting. Equipped with imported SKD2 blade material, adjustable feeding speed, and a powerful motor system featuring an 86 stepping motor for feeding and an AC motor for the blade.

Specifications

Model	WPM-ZCUT-100S
Power Supply	220V/110V
Power	600W
Cutting Length	0.1mm - 9999.9mm
Cutting Width	0 - 100mm
Cutting Diameter	1-8mm
Blade Material	Imported SKD2
Feeding Motor	86 Stepping Motor
Weight	32kg
Dimensions	L400*W350*H390 mm

Pneumatic Cable Cutter for 50mm OD Thick Wires

The WPM-C50 Pneumatic Cable Cutting Machine is a powerful solution designed to streamline thick cable cutting processes. It combines safety, speed, and accuracy with simple operation and low maintenance. Featuring a pure pneumatic design with optional foot pedal upgrade for electric operation, the WPM-C50 handles large cable lengths with ease. The SKD11 material blade ensures high precision, sharpness, and exceptional wear resistance for superior cutting quality and extended lifespan.

Specifications

Model	WPM-C50
Voltage	220V/50Hz
Cutting Range (OD)	50mm
Blade Material	SKD11
Weight	10kg
Operation	Pure Pneumatic, Optional Foot Pedal
Warranty	1 Year

Pure pneumatic thread cutting machine

Can cut 1-50 square soft cord

- easy to use
- high speed
- efficient
- Flat cut

Automatic Wire & Heat Shrink Tube Cutter with LCD Display

The WPM-09A is a wire and shrinkable tube cutting machine adopting a micro-computer numerical control device with automatic counting function. Users can freely set cutting length, quantity, yield, and speed. It applies to cut all kinds of PVC tubes, heat-shrink tubes, electric wires, and more. Features include full English LCD display, hard tungsten steel blade, and high cutting speed of 3000-7000 pieces per hour.

Specifications

Model	WPM-09A
Cutting Length	5 - 9999mm
Max Diameter	25.0mm
Max Width	25mm
Cutting Speed	3000 - 7000 pcs/hour
Cutting Tolerance	+/- (0.002 x L)
Blade Material	Hard Tungsten Steel
Display	Full English LCD
Power Supply	AC220V/50Hz or AC110V/60Hz
Power Rating	200W
